CESifo is inviting the submission of papers (or extended abstracts) for the annual conference of the CESifo Area on Energy and Climate Economics. Submissions from both CESifo network members and non-network members will be considered.

The scope of relevant topics is broad, ranging from climate mitigation and adaptation to the study of energy and resource markets as well as environmental market failures more broadly. The aim of the Energy and Climate Economics Area is to bring leading researchers from both sides of the Atlantic together to facilitate and discuss new and innovative theoretical and empirical research.

Please note that the same paper is allowed to be submitted to only one of the CESifo Area Conferences. Papers which are more related to the topic of other Area Conferences may be re-directed to the respective Area Director.

DISTINGUISHED CESIFO AFFILIATE AWARD

All CESifo Research Fellows are invited to submit nominations for the Distinguished CESifo Affiliate Award, given to the candidate presenting the best paper at the conference. Nominees for this award, aimed at encouraging talented young scholars, must be no more than five years after having completed their Ph.D. (the same limit applies to all co-authors in the case of a paper with multiple authors). It is not mandatory for candidates to be from the CESifo research network. The criteria for the award are scientific originality, policy relevance, and quality of exposition. The winning paper will appear in the CESifo Working Paper Series, and the prize winner will receive a €2,000 prize. To nominate a candidate, a CESifo Research Fellow must submit the nominee's paper to Maximilian Auffhammer along with a brief letter explaining the motivation for the nomination. The deadline for nominations is

8 January 2023.
